

National Reference Centre of Rare Pituitary Diseases

and

Асоциация по ендокринни хипертонии "Алианс"

Association d'Hypertensions Endocriniennes "Alliance"

under the aegis of

Medical University – Sofia

Clinical Center of Endocrinology and Gerontology

organize

Third Scientific Expert Meeting

**METABOLIC AND CARDIOVASCULAR COMPLICATIONS IN
PITUITARY AND ADRENAL DISEASES**

07- 08 May 2018

Sofia, Bulgaria

Aula Maxima, University Hospital "St. Ekaterina"

7th May 2018

14.00 – 14.10 – Sabina Zacharieva - Welcome and opening of the event

Adrenal diseases

14.10 – 14.40 Gian Paolo Rossi - The Endocrine Society 2016 Guidelines on primary aldosteronism: need for an update based on novel evidences.

14.40 – 15.10 George Piaditis – evidence of dysregulated aldosterone dynamics in essential hypertension.

15.10 – 15.40 Joanna Matrozova – Bulgarian database of primary aldosteronism: focus on carbohydrate disturbances.

15.40 – 16.10 Atanaska Elenkova – Diabetes mellitus and prediabetic states in patients with pheochromocytomas.

16.10 - 16.30 - Coffee break

16.30 – 17.00 Jérôme Bertherat – Carney complex.

17.00 – 17.30 Guillaume Assié - Diagnosis of adrenocortical cancer: from clinics to genomics.

17.30 – 18.00 Djuro Macut - Metabolic complications in congenital adrenal hyperplasia.

18.00 – 18.30 Ralitsa Robeva – 11-beta-hydroxylase deficiency: a clinical case.

8th May 2018

Morning session

09.00 – 09.30 Vera Popovic - Major and complex impact of hormonal dysfunction on components of the metabolic syndrome.

09.30 – 10.00 Alberto Pereira - Cardiometabolic morbidity of Cushing's syndrome.

10.00 – 10.30 Rosario Pivonello - Pathogenesis of cardiovascular complications in Cushing's syndrome.

10.30 - 11.00 - Coffee break

11.00 – 11.30 Maria Orbetzova – Differences in metabolic disturbances between ACTH-dependent and ACTH-independent forms of Cushing's syndrome.

11.30 – 12.00 Maria Koltowska - Quality of life in patients with Cushing's syndrome.

12.00 – 12.30 Przemysław Witek - The reversibility of diabetes, improvement in body composition and adipocytokines profile following successful TSS for Cushing's disease.

12.30 -13.10 Case reports.

13.10 – 14.30 Lunch

Afternoon session Part 1

14.30 – 15.00 Annamaria Colao – Acromegaly and cardiovascular complications.

15.00 – 15.30 Albert Beckers - The Liege Acromegaly Survey (LAS): a new software tool for the study of acromegaly.

15.30 – 16.00 Silvia Vandeva, Emanuil Markov – Continuous Glucose Monitoring (CGM) in patients with acromegaly

16.00 – 16.40 Case reports

16.40 - 17.00 -Coffee break

Afternoon session Part 2

17.00 – 17.30 Dragana Miljic – Clinical relevance of metabolic phenotype in hypopituitarism: what really matters ?

17.30 – 18.00 Maria Pfifer - Vascular complications in patients with GH deficiency and effects of GH replacement

18.00 – 18.30 Zdravko Kamenov - Late onset hypogonadism in men and cardiovascular risk..

18.30 - Sabina Zacharieva - Conclusion and Closing of the event
